- 10) The appropriation for streets/drains is comprised of \$7,000, for the annual township at-large county drain assessments and \$282,337, for road projects to preserve prior township general fund road investments or for joint projects with border townships as may be specifically approved in advance by the township Board.
- 11) The state METRO Act funds included in this budget and any remaining METRO balance designated in the general fund balance are used for the township at-large share of public street lighting of roads and rights of way and lighting at the Michigan Avenue at I-69 Park 'n Ride lot as well as intersections of public roads within the township.
- 12) Various fees for permits, licenses and applications shall remain at their currently approved levels pending receipt of the annual audit at which time the Board may determine whether adjustments are needed to assure that the aggregate of fees received, as nearly as is practical, covers allowable expenses.
- 13) As of March 31, 2023, the restricted fire department millage balance within the general fund balance was \$1,002,942, as verified by the township audit. The anticipated balance as of 3/31/24 is \$1,243,619, after adding the annual authorized tax levy and deducting Board authorized expenses. The appropriation in the 2024-25 budget estimates a tax levy of \$264,378, which is the 9th annual levy of the renewed 1.5 mills authorized in 2016 by township electors for 10 years for replacement of fire trucks, construction of new facilities and purchase of major equipment. The annual fire millage levy for 2024-25 will be added to the reserve in anticipation of the Fire Board approving the purchase of a replacement brush truck and pumper truck during the fiscal year.
- 14) As of March 31, 2023, the fire equipment and facilities improvement assigned balance within the general fund balance was \$300,838, as verified by the township audit. The anticipated assigned balance for this purpose as of March 31, 2024, is \$300,838 and is designated for fire department equipment purchases and facility improvements not paid for through the voted fire millage levy. The 2024-25 budget does not allocate funds to this reserved balance as it is above a level of \$300,000, which the Board determines to be sufficient. No expenditures are contemplated from this reserve for the 2024-25 budget year.
- 15) The \$35,000, appropriated for capital outlay shall be utilized as may be specifically approved by the Township Board. Up to \$10,000, of this amount may be used for replacing and upgrading information technology equipment as may be determined by the Clerk and Treasurer.
